WWW.GO-PAINT.COM

Go!Paint develops products that make the work of the painter easier, more efficient and cleaner. They are all innovative products, which thanks to their ease of use, have become an essential part of every painter's standard equipment.

Since 2004, Go!Paint has successfully launched products that were completely new. These are based on our own ideas, and also those of professional painters.

Our design department handles the entire product development process, and our products are almost entirely produced in the Netherlands. We test, share ideas and knowledge with (international) paint manufacturers and painters. Together, we ensure that we only bring products to market that make painting easier and improve the final result.

Go!Paint is part of Hildering Packaging, which has supplied high-quality packaging to paint manufacturers and the chemical industry since 1958.

BRUSH CARE

Every painter will agree that a well-maintained, high-quality brush paints best. The process of deep cleaning and properly storing brushes is time-consuming, and changes just as much as the paint systems themselves. The newer water based paint systems in particular lead to problems, because they dry very quickly in the brush hairs.

Go!Paint has developed effective cleaning and storage products, which are not just quick and easy to use, but which also do not harm the environment or the painter.

STORE AND GO

THE NATURAL BRUSH STORAGE GEL

The composition of paint has changed significantly in recent years. The paint dries on brush bristles more rapidly than before. This has consequences for cleaning and storing brushes. Store and Go is a gel that lets you store brushes for weeks or even months. If you use the same paint next time, you don't even need to clean the brush first. The gel seals the bristles off from the air so they remain flexible and don't dry out. When it's time to continue painting, you simply wipe off the gel with a cloth. The effect of the remaining gel on the paint is negligible.

Item code	40110012
EAN code	8717127069187
L x W x H	200 x 200 x 290 mm
Weight	2,1 kg
HS code	34022090
Pallet quantity	144 pcs
Box quantity	6 pcs

The gel seals the bristles off from the air so they remain flexible and do not dry.

STORE AND GO SMALL

STORE AND GO GEL 500 ml

The smallest version of Store and Go is designed to store a single brush. The brush is stored with the brush hairs in the gel, with the lid placed over the brush handle and clicked into place on the can.

You can choose to store the brush each time in the gel without cleaning it. The gel will become dirtier over time, but because it is so thick, the dirt will not flow through it. In addition, it is very easy to wipe the gel off the brush hairs. This is ideal if you use the brush less often, or to try out gel as a storage medium.

Item code	40110003
EAN code	8718363033314
L x W x H	105 x 105 x 120 mm
Weight	0,62 kg
HS code	34022090
Pallet quantity	672 pcs
Box quantity	6 pcs

STORE AND GO REFILL

STORE AND GO GEL 1.5 L

This container with 1.5 litres of Store and Go brush storage gel can easily be placed in the Store and Go can. Remove the lid, install the grey ring, and it is ready to use. You can also simply add a little extra gel to the Store and Go pot that you're using when the gel level drops. Make sure the brush hairs remain covered by the gel.

Item code	40110011
EAN code	8717127069194
L x W x H	175 x 175 x 155 mm
Weight	1,6 kg
HS code	34022090
Pallet quantity	288 pcs
Box quantity	12 pcs

CLEAN AND GO

THE FAST BRUSH CLEANING SYSTEM

Cleaning brushes takes a lot of time. Sometimes so much that it is cheaper to throw away your brush and use a new one next time – unless you use the Clean and Go. It consists of a filter bag with a fine metal filter. You fill the product with a brush cleaner or water and flex the brush firmly over the grid for around 20 seconds. This cleans faster and deeper. The paint particles are collected in the bag under the sieve, which means you can keep using the cleaning fluid for longer. You save money, time and the environment.

And what works better than a well-used, well-maintained paint brush?

Item code	40100008
EAN code	8717127060511
L x W x H	200 x 200 x 320 mm
Weight	0,42 kg
HS code	73102191
Pallet quantity	144 pcs
Box quantity	6 pcs

POUR AND GO

SIMPLE AND CLEAN DECANTING

Every painter will recognise it: pouring paint properly is difficult. With the Pour and Go you can pour the paint cleanly and simply into a more manageable paint kettle, mixing container or spray gun. When pouring, (almost) no paint ends up in the rim of your paint can, even when pouring into a roller tray or paint kettle. You can then close the paint can again to make it airtight, without the paint becoming dirty or drying out.

The Pour and Go is also widely used to pour expensive colour pastes into the paint mixer without wastage.

Suitable for cans of 0.75 and 1.0 litres.

Item code	40500011
EAN code	8717127060825
L x W x H	75 x 110 x 50 mm
Weight	0,007 kg
HS code	39235090
Box quantity	800 pcs
Bag quantity	20 pcs

PAINT CARE

Even the very best paint is affected by time, dust, temperature, thinners, sunlight and/or dried-on particles and skins. That's why it's important to handle the paint with care from the moment you open the can.

Go!Paint offers products that open the can in the right way, that pour out the paint in the right way, that protect the paint and make it easier to use, that provide space for extra tools, or that even dispense the paint with the right flow for a streak-free final result.

FLOWCONTROL

THE HEATED PAINT KETTLE

The FlowControl warms your paint to the ideal working temperature. This means you can use the paint exactly as intended by the paint manufacturer, with the ideal shine and optimal surface protection.

Paint manufacturers specify the temperature at which their paint should be used. If the temperature is lower, the viscosity of the paint will increase – it will become syrupy. While it is possible to thin the paint, this leads to a loss of shine and a thinner paint coat.

Only the FlowControl allows you to use the quality of your paint optimally without additives. And because you can work at lower temperatures, you can make significant time savings.

Item code	40250002
EAN code	8717127069392
L x W x H	250 x 250 x 250 mm
Weight	1,937 kg
HS code	85167990
Pallet quantity	96 pcs
Box quantity	1 pcs

FLOWCONTROL BATTERY

Rechargeable battery for the FlowControl. Depending on the circumstances and settings, you can work with a fully charged battery for about 3 to 8 hours.

The battery should be fully charged at least once every 3 months.

Item code	40250001
EAN code	8717127069408
L x W x H	84 x 90 x 45 mm
Weight	0,356 kg
HS code	85065090
Box quantity	1 pcs

FLOWCONTROL CHARGER

Charger for the FlowControl battery. Charging time of the battery is 6-8 hours.

Including UK adapter.

Item code	40250003
EAN code	8717127069378
L x W x H	50 x 97 x 73 mm
Weight	0,139 kg
HS code	85444290
Box quantity	1 pcs

PAINT KETTLE AND LINER

As a professional painter you want to work as effectively as possible. This includes easy mobility. The Paint and Go is a paint kettle containing a plastic insert. It's light and the wide opening means it's much easier to use than a paint can. This means you can also use a paint grid and 10 cm paint and varnish rollers. Decanting paint also means you take only the amount of paint you need from the main can. The rest remains cleanly stored in the can.

ROLL AND GO S

PAINT, ROLLER AND BRUSH IN ONE HAND

With the Roll and Go you carry your paint, roller and brush in one hand. Say goodbye to the inconvenience of a paint tray that you can't place anywhere on your ladder, or always having to bend down to reach it. The integrated rolling surface is vertical, which allows you to roll evenly. Unused paint flows directly back into the reservoir. Whenever you need to use the brush, just place the roller in the hollow handle- or vice versa.

It's ideal for intensive jobs in difficult-to-reach places such as fascia boards, kitchen cabinets, boats and doors. You can store your roller or brush and the paint in the Roll and Go, so you can immediately continue the next day.

Item code	40200005
EAN code	8717127060832
L x W x H	176 x 176 x 175 mm
Weight	0,100 kg
HS code	39231090
Pallet quantity	576 pcs
Box quantity	48 pcs

LINER ROLL AND GO S

The extremely thin and yet sturdy pre-formed disposable liners fit exactly in the Roll and Go. The liners are made from 100% recycled PET from waste. By using the liners, the Roll and Go remains clean and need not be thrown away or cleaned. The liners are sold in sets of 3.

Item code	40300009
EAN code	8718363056481
L x W x H	165 x 120 x 175 mm
Weight	0,042 kg
HS code	39232100
Pallet quantity	3120 sets of 3 pcs
Box quantity	48 sets of 3 pcs

ROLL AND GO S LID

Keeps the paint in the Roll and Go fresh and clean.

Item code	40200027
EAN code	8718363092601
L x W x H	176 x 176 x 152 mm
Weight	0,028 kg
HS code	39241000
Box quantity	10 pcs

ROLL AND GO XL

STABLE PAINT TRAY WITH TWO COMPARTMENTS

The Roll and Go XL is a stable paint tray with two compartments: one for rolling paint and another for your other materials. You take everything at once when you climb the ladder or platform. The Roll and Go XL is so stable that it won't tip over, even if you use the roller with a telescopic pole.

Item code	40210012
EAN code	8717127061389
L x W x H	385 x 365 x 250 mm
Weight	0,927 kg
HS code	39231090
Pallet quantity	160 pcs
Box quantity	8 pcs

LINER ROLL AND GO XL

This ultra-thin liner from 100% recycled PET fits inside the entire Roll and Go XL. Even the small compartment remains clean. At the end of the job, you can easily fold up the entire liner. This makes cleaning up quick. This is also ideal when working with a 2K paint system. The liners are sold in sets of 5.

Item code	40310006
EAN code	8718363056450
L x W x H	385 x 365 x 250 mm
Weight	0,380 kg
HS code	39232100
Pallet quantity	320 sets of 5 pcs
Box quantity	16 sets of 5 pcs

ROLL AND GO TRAY 12

THE STABLE TWO COMPARTMENT PAINT TRAY

With the Roll and Go Tray 12 you can do any small paint job. The raised rolling surface allows excess paint to flow back into the reservoir for a better paint distribution to the roller.

Park the roller frame with its handle over the edge or in the second compartment and get plenty of access to the paint reservoir for your brush. You can also use the second compartment for storing a cloth wipe, or other tools. This tray is much stronger than common paint trays and easy to hold in your hand.

Item code	40230001
EAN Code	8718363049728
L x W x H	350 x 170 x 110 mm
Weight	0,154 kg
HS Code	39231090
Pallet quantity	960 pcs
Box quantity	60 pcs

LINER ROLL AND GO TRAY 12

We designed the tray to last and the liner to be disposed of. To reduce waste both are made of 100% recycled plastics. The disposable liner covers both compartments, so the tray stays clean and cleaning up takes seconds only. Prevents washing out.

Item code	40330001
EAN code	8718363049735
L x W x H	355 x 175 x 115 mm
Weight	0,134 kg
HS code	39232100
Pallet quantity	1440 sets of 5 pcs
Box quantity	60 sets of 5 pcs

ROLL AND GO TRAY 25

THE STABLE ROLLING TRAY WITH TWO SECTIONS

The Roll and Go Tray 25 has a rolling section suitable for rollers of up to 25 cm/9" wide. This means this sturdy tray can be used to apply paint with a roller to larger surfaces, such as a wall, floor or ceiling.

This tray also has a second section, where you can place the roller while you take a break. You can also use the extra section to hold a mini-roller or brush for edges and corners, or a cloth, sponge or other tool.

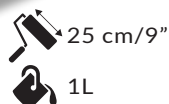

The tray is very sturdy, which makes it easy to pick up and carry, or even to hold in your hand while painting.

Item code	40230008
EAN code	8718363050953
L x W x H	390 x 295 x 110 mm
Weight	0,360 kg
HS code	39231090
Pallet quantity	640 pcs
Box quantity	40 pcs

LINER ROLL AND GO TRAY 25

The sturdy tray and ultra-thin disposable liners are both made from 100% recycled plastic. The disposable liner fits inside both sections, which makes starting and cleaning up very rapid. Prevents washing out.

Item code	40330006
EAN code	8718363050984
L x W x H	395 x 300 x 120 mm
Weight	0,240 kg
HS code	39232100
Pallet quantity	800 sets of 5 pcs
Box quantity	40 sets of 5 pcs

ROLL AND GO BUCKET

The sturdy Bucket with the characteristic sloped rolling surface. Suitable for all types of paint and varnish rollers of up to 18 / 25 and 38 cm. No more splashes or dried-on paint particles, as can happen with a separate paint rolling grid. Can be used and cleaned faster. The products, the liners and the lids are all made from 100% recycled plastics. The lids keep paint fresh and make it possible to put together promotional sets that will boost sales.

ECONOMY LINE

This complete range of economic paint trays and multi-use buckets, matches our design philosophy to build strong products that last, in combination with ultra-thin disposable liners, that prevent washing out. Even these straightforward products come with comfortable design features, like steep roller areas with a stopper bar on the top edge and extra deep reservoirs. Both the products and the liners are made from 100% recycled plastic. The liners fit nicely and they have a ribbed pattern to get more grip on the roller.

TOOL TRAY

PERFECT WHEN WORKING AT HEIGHT

The Go!Paint Tool Tray is a versatile container for paint kettles and tools. It easily fits a ladder, scaffolding or a platform.. This tool is ergonomically designed to have easy access to tools, gives a safe environment to work and makes it possible to do your job faster.

Because everything is safe and within your reach there is less lifting, less bending and less chance that something is accidentally kicked off the scaffolding. The cleverly shaped handle can be turned backwards for stability against slanted surfaces such as a ladder. Less lifting, less bending and both hands free for every job when working at height.

L x W x H	190 x 190 x 40 mm
Weight	0,041 kg
HS code	39235090
Box quantity	10 pcs

BRUSH CLIP

STAINLESS STEEL

Can be used in combination with the Connect and Go ring. Suitable for all types of brushes.

Item code	40100021
EAN code	8718363099860
L x W x H	45 x 22 x 20 mm
Weight	0,007 kg
HS code	732010
Bag quantity	10 pcs

BRUSH CLIP

WHITE

Fits directly on liner, no ring needed. Can hold two brushes.

Item code	40410017
EAN code	8717127069262
L x W x H	106 x 50 x 15 mm
Weight	0,136 kg
HS code	39239000
Bag quantity	10 pcs

BRUSH MAGNET

THE EASIEST BRUSH CLIP

The flexible Brush Magnet always comes in handy. This versatile brush clip easily holds a paintbrush, roller or putty knife in the position you want it to be. Connect it to a paint can and Hoover the brush over the paint or with its bristles in the paint. The clip is strong and flexible, so it can also be attached to a non-magnetic plastic paint bucket. Simply keep a brush standing-by on the side so it is not in the way while using a roller and will not fall over in the paint.

The magnets on both ends of the strip are strong enough to hold a cylindrical or oval brush and even the metal frame of a roller. The Brush Magnet allows you to park a paintbrush everywhere, anytime.

Item code	40500009
EAN code	8718363060242
L x W x H	128 x 30 x 6 mm
Weight	0,034 kg

Bag quantity	10 pcs

PAINT PACKAGING

Hildering Packaging is specialised in tin can packaging, we have a complete and extensive range for the paint and chemical industry. Our company, founded in 1958, has customers from leading varnish and paint factories at home and abroad. We can offer you a complete range of duo component packaging, paint kettles, liquid cans and pails. In a nutshell, all tin can packaging for lacquers, stains, paints coatings and construction chemicals. Using the most modern techniques we can produce the latest forms, the most appealing prints and the best protection currently available.

Empty cans also sell well in the paint wholesale market. For example, a painter may buy empty cans to store left-over paint neatly and safely, to leave it with the customer, or for mixing.

PAINT TRANSPORT

PAINT TRANSPORT TRAYS FOR CANS

TRANSPORT YOUR PAINT CANS SECURELY

Paint cans are easily damaged, which makes it difficult to send them safely. Paint Transport Trays can easily be clicked into place on the top and base of a paint can, and the complete assembly slid inside the perfectly fitting cardboard box. If needed, the trays can absorb the force of a fall or impact. This economical packaging method saves a great deal of space during transport.

The receiver can keep using the Trays as coaster for the lid or a wet paint brush or as a stable drip tray under the paint can.

TRANSPORT TRAY Ø99 / Ø108

Suitable for	500 ml, 750 ml, 1 L can
Item code	30200445
EAN	8718363032676

PRINTING AND LABELLING

Hildering Packaging has an advanced labelling department. Here we can label cans (cylindrical and conical), liquid canisters and plastic buckets for you. We can also supply high quality printed tin cans. For each batch size we have the best solutions. Our in house designers are happy to support and advise you.

CYLINDRICAL CANS

BLANK AND COATED

Cylindrical can packaging are the classic packaging type for paint, varnish and stain. They are round, with a straight base (i.e. they are not stackable), and there is a ring on the top of the can, into which the lid is placed. The ring may be RL (the lid closes on the inside of the ring) or TT (the lid is placed inside the ring, and closes in three places).

The codes below are for the can with matching lid.

BLANK

Volume	ø x h	Closure	HS code	Packaging quantity
125 ml	60 x 62 mm	RL	73102191	384 pcs
250 ml	73,5 x 76,5 mm	RL	73102191	325 pcs
500 ml	99 x 90 mm	TT	73102191	180 pcs
1 L	108 x 132 mm	TT	73102191	128 pcs
2,5 L	153 x 156 mm	TT	73102191	33 pcs
5 L	180 x 222 mm	TT	73102191	22 pcs

COATED

Volume	ø x h	Closure	HS code	Packaging quantity
125 ml	60 x 62 mm	RL	73102191	384 pcs
250 ml	73,5 x 76,5 mm	RL	73102191	325 pcs
500 ml	99 x 90 mm	TT	73102191	180 pcs
1 L	108 x 132 mm	TT	73102191	128 pcs
2,5 L	153 x 156 mm	TT	73102191	33 pcs
5 L	180 x 222 mm	TT	73102191	22 pcs

CONICAL CANS

BLANK AND COATED

Conical packaging has a wider diameter at the top than at the base, which means the packaging (if empty) can be perfectly stacked together. Item includes lid + clamp ring.

BLANK

Volume	ø x h	Closure	HS code	Pallet quantity	Packaging quantity
5 L	180/165 x 235 mm	UN	73102191	384 pcs	40 pcs
10 L	230/217 x 291 mm	UN	73102191	330 pcs	10 pcs
20 L	287/270 x 377 mm	UN	73102191	88 pcs	10 pcs

PLASTIC BUCKET

CONICAL

Solid plastic buckets for, for example, wall paint.
Available in various volume variants.

BLANK

Volume	Item code	EAN code	Closure	HS code	Packaging quantity
1 L	30210005	8718363073860	Lid	39231000	10 pcs

MULTI OPENER

ONE TOOL FOR ALL YOUR CANS

The Multi opener is a single tool that lets you open conventional paint cans, mechanically closed latch rings and lug lids.

If you wish to vent the packaging while pouring liquid from a can, simply punch a hole in it with the Multi opener. Its ergonomic handle makes it comfortable to hold.
